

About Us

Our mission is to be the best in field of tattoo supply, to have meanings for tattoo industry in indonesia and to be a channel of blessings for others. Our goal is to help pushing forward the edge of Indonesia tattoo industry by provides them good tattoo supplies in terms of continuity, quality, professionalism, and legal matters, also to help tattoo industry in Indonesia to reach a proper hygienic tattooing procedure. We started to establish our venture at the end of year 2005. In year 2006 we started to use the name of INFINITY SUPPLY for our venture. Back at that time we only sell tattoo aftercare. Based on thought of the difficulties that people have to face to import tattoo supplies, then we thought why don't we give ourselves a shot to help our artist friends. This thing turned into something that was not easy to overcome, moreover until this time our country has a bad image as one of the highest credit card crime through internet. But with the helps of God the almighty and few friends, we eventually can do it. We start the business based on our loves of tattoo also our loves to our own family. We don't support any activities which based on credit card crime or a result of crime related activities. For us, if we want something good, last for a long time, give you a piece of mind, and develop further then we should start with something good too. Therefore we decided to import goods legally and using our own saving as first capital. So you, as a customer or prospect don't have any thing to worry about because there is no influx of illegal supplies to your venture which I believe is your source to financing you and your family living cost. After a year since the beginning of our venture, we decided to expand our product line by adding pre-made needles on bar, tattoo machines etc. to our list. This is based on fact that by relied on one product (tattoo aftercare) is not enough to cover our living cost. Therefore we finally did add our product lines. We also changed our name from Infinity Supplies into PLENOX Supply. The name of PLENOX came from a twisted Javanese word to call a daughter. We use it because we believe the presence of our little daughter is a symbol of power and love of the almighty God in our family life. We felt that God has poured a lot of his love by the presence of our daughter and we believe everything happen for a reason. Our venture start to growing right after Erin gave birth to Joanna hence we do believe God had given us Joanna because he has a plan and that included our venture. After about 2 years we achieved as an official exclusive distributor of THC tattoo aftercare from UK. We also now an official reseller of Starbrite Colors ink from US. We can be proud of what we achieved because we are the only one that can set the bar for that particular achievements among other suppliers. This thing cannot be built in one day. But we are still learning everyday, that is the reason why we became a member of APT in order to learn more and can give more to the industry. Even though we started our venture not so long ago but we believe due to our goal and mission, what we have achieved merely comes from experience, strong will and lot of blessings from God. We will try our best to be the best in this field and to be there to serve all your needs. We should say enjoy your visit in our website and thank you for sharing your valuable moments with us.
